---

## PROFILE

With training from Route Academy and a passion for frontend development, I specialize in Angular, with additional experience in React and Vite. My knowledge of UX design, gained through a Udacity Nanodegree program, helps me create user-friendly websites that meet both business objectives and user needs.

---

## SKILLS

**Programming Languages:** JavaScript, Typescript, HTML, CSS, SCSS, ES6+

**Frameworks & Libraries:** Angular, Tailwind, Bootstrap, React, Vite, jQuery

**Other Skills:** Git, Angular Cli, Unit Testing, Agile, Angular Material, Rxjs, Npm, regex, Restful Api

---

## EXPERIENCE

### Frontend Trainee

[Route Academy](#) – Hybrid, Alexandria

Route is an Egyptian IT-Training Center founded in 2012

### Mega Projects:

---

#### [E-commerce website using Angular](#)

- **Desc:** Used PrimeNG library to spice up the UI. Included login and logout functionality. Added a cart for purchasing products. Integrated a payment gateway.
- **Skills Used:** Angular - SCSS - HTML - Typescript - PrimeNg - Bootstrap - Stripe Payment GateWay.

#### [Fmovies](#)

- **Desc:** Developed a responsive simple web app built with The Movie DB API + Angular + Bootstrap. It can show you interesting data about popular/trending movies and series.
- **Skills Used:** Angular - CSS- HTML - Typescript.

#### [Quiz App](#)

- **Desc:** Developed a quiz application using jQuery, regex and particles.js library to spice up the UI. Integrated an API to get questions depending on difficulty and category and num of questions. Implemented a feature that loads questions from a 3rd party API, tracks and displays high scores. Used modern ES6 JavaScript features. Designed the application using OOP concepts. Used jQuery to manipulate the DOM and handle events.
- **Skills Used:** JavaScript - Regex - HTML - CSS - particles.js - Bootstrap - jQuery - OOP

---
